

Gulf Impact Projects

Summer 2023

Joseph Brooks

Project: No Place Like LaPlace: A Green Infrastructure Network for Stormwater Management
Major: Landscape Architecture
Mentor: Dr. Nicholas Serrano
Research Department: Landscape Architecture

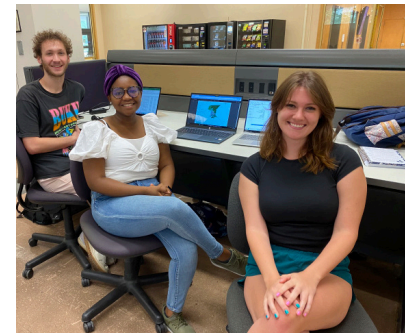

Jennifer Cagnolatti

Project: Evaluation of Altered Nutrient Conditions on Algal Growth During Dynamic Co-Culture
Major: Biological Sciences
Mentor: Dr. Sibel Bartu-Ates
Research Department: Oceanography and Coastal Sciences

Emma Carlo, Alcina Costa, Neil Tepper

Project: Callin' Baton Rouge: 311 Calls, Flooding and Environmental Justice
Majors: Sociology, Computer Engineering, Political Science
Mentor: Dr. Kevin Smiley
Research Department: Sociology

Brooke Chouest

Project: Blood in the Water, Water in the Lungs
Major: Studio Art
Mentor: Dr. Johanna Warwick
Research Department: Art

Gulf Impact Projects

Summer 2023

Nonnie “Betsy” Cook

Project: Enabling Predictive Toxicology Assessments to Determine Whether Pollution is Contributing to the Decline of Sharks in the Gulf of Mexico and Beyond

Major: Coastal Environmental Science

Mentor: Dr. Jon Doering

Research Department: Environmental Sciences

Carlie Dutile

Project: Synthesis and Characterization of Cobalt Complexes for the Electrochemical Reduction of Nitrite in Water

Major: Biological Engineering

Mentor: Dr. Noemie Elgrishi

Research Department: Chemistry

Victor Gischler

Project: Louisiana: Sounds of the Coast

Major: Music

Mentor: Dr. Brian Nabors

Research Department: Music

Jamarion Johnson

Project: Vulnerability of *Spartina patens* Marshes to Sea-Level Rise

Major: Coastal Environmental Science

Mentor: Dr. Tracy Quirk

Research Department: Oceanography & Coastal Sciences

Gulf Impact Projects

Summer 2023

Stephanie Procopio

Project: Cypress Tree Mapping and Measuring
Major: Coastal Environmental Science
Mentor: Dr. Linda Hooper-Bui
Research Department: Environmental Sciences

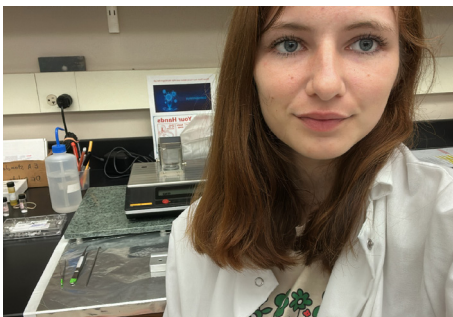

Jonathan Russell

Project: Are Increasing Global Sea Temperatures Linked to Changing Tropical Cyclone Induced Tornadic Distribution along the U.S. Gulf of Mexico Coast?
Major: Coastal Environmental Science
Mentor: Dr. Robert Rohli
Research Department: Oceanography & Coastal Sciences

Dakota Sievers

Project: Regenerating or Ghost Forest? A.E. LeBlanc Woods Natural Area
Major: Coastal Environmental Science
Mentor: Dr. Linda Hooper-Bui
Research Department: Environmental Sciences

Patricia Thibodeaux

Project: Comparing Arthropod and Plant Communities Across Natural and Man-Made Brackish Marshes in Coastal Louisiana
Major: Animal Sciences
Mentor: Dr. Michael Polito
Research Department: Oceanography & Coastal Sciences

Gulf Impact Projects

Summer 2023

Landry Tucker

Project: Sediment Core Analysis of a Well-Preserved Underwater Baldcypress Forest in the Northern Gulf of Mexico
Major: Chemistry
Mentor: Dr. Kristine DeLong
Research Department: Geography & Anthropology

Treasure Wells

Project: The Louisiana Early Childhood Teachers Oral History Project
Major: Psychology
Mentor: Dr. Jennifer Baumgartner
Research Department: Education

Jameson Woodall

Project: Sedimentary History of the Mississippi River Pass-a-Loutre Outlet
Major: Coastal Environmental Science
Mentor: Dr. Sam Bentley
Research Department: Geography & Geophysics
