

Don't let a serious illness add financial stress.

Help protect your finances and your family.

Almost everyone knows someone who has had cancer, a heart attack or a stroke and has seen the financial impact. Critical Illness Protection Plan from UnitedHealthcare is designed to help ensure that, should you be diagnosed with a covered critical illness, you'll have financial support to help you continue to pay your daily living expenses.

How does it work?

The UnitedHealthcare Critical Illness Protection Plan sends a lump-sum payment directly to you after your diagnosis so you can help stay on top of your bills.

While a traditional health plan is necessary, there are costs it may not cover. This is where Critical Illness Protection Plan can help, enabling you to use the lump-sum payment to help pay expenses such as:

- Mortgage or rent payments.
- Groceries.
- Child care during treatment.
- Out-of-pocket health plan costs (deductibles, coinsurance, etc.).
- Prescriptions.
- Transportation to and from therapy and specialist appointments.

What's covered?¹

Conditions and coverage may vary depending on where you live or what your employer is offering:

Heart disease, stroke and cancer are among the leading critical illnesses in the U.S. Americans suffer 1.5 million heart attacks and strokes each year.² About 1.6 million new cancer cases are expected to be diagnosed in the U.S. this year.³

Many employees are not prepared for high, unexpected costs. Almost 2 in 3 American workers say they have less than \$1,000 on hand to pay the out-of-pocket expenses of unexpected, serious illness or emergency.⁴
